ABOUT ME

I am a front-end developer with deep expertise in Next.js, my strongest and most efficient framework. While I excel in Next.js, I am also proficient in React and React Native. Passionate about continuous learning and self-improvement, I thrive on challenges that push me to grow and adapt. Known for my fast learning and adaptability, I strive to deliver clean and efficient solutions while staying ahead in the ever-evolving tech landscape.

WORK EXPERIENCE

23/01/2023 – CURRENT İstanbul, Türkiye

SOFTWARE DEVELOPER VENHANCER TECHNOLOGY

- Led the development of mobile applications using React Native, ensuring seamless performance on both iOS and Android platforms.
- Worked on key features like push notifications, in-app purchases, and real-time data syncing.
- Collaborated with designers to create intuitive and responsive user interfaces, improving user retention and satisfaction.
- Utilized performance monitoring tools to optimize app speed and reduce load times, enhancing the overall user experience.

Projects:
